ABOUT THE PROJECT

Managing digital transformation by developing digital readiness, resilience and capacity. The DIRECT project addresses this priority as it supports digital transformation plans in VET and adult education for older workers.

OUR AIM

To develop and implement an online/F2F training programme for older (50+) workers in logistics companies in the field of digitalisation of logistics

INNOVATIVE OUTCOME 1

Research and specific skills map for older logistics managers

INNOVATIVE OUTCOME 2

Development of training materials in the field of digitalisation for senior logistics managers

INNOVATIVE OUTCOME 3

Development of an interactive online area for older logistics managers

MAIN

OBJECTIVES

To identify the framework conditions related to knowledge transfer for Digital Logistics in the partner countries and how these companies train their staff.

To analyse existing good practices on up-skilling older logistics workers.

The development of a standard methodology for training & a training programme for logistics companies on how to upskill their older logistics workers in digitalisation & logistics
